

## **FLEXICARE CARD BY BMC**

**Date :** 24th January 2017

## **FLEXICARE CARD BY BMC**

You used to send money to your loved ones in Zimbabwe but now you can send them health. Dr Brighton Chireka has teamed up with Belvedere Medical Centre (BMC).

BMC has developed FLEXI- CARE, Zimbabwe's first debit medical card that enables registered users to access emergency and non-emergency health services. The unique card comes bundled with Zimbabwe's first health mobile application which allows registered users to access their medical records through their mobile phones. The card also provides personalized health assessment and wellness services which leads to prevention of complex medical challenges. Through this locally designed software clients also have the ability to save for their health.

Flexicare is NOT medical aid or a form of medical aid. Flexicare is an innovative healthcare solution that is the first of its kind in Zimbabwe and the region. Flexicare seeks to significantly

reduce the number of premature deaths due to non communicable diseases. Flexicare also seeks to improve access to health by offering an innovative healthcare solution that allows registered clients to access emergency healthcare services on credit from selected healthcare centers using the Flexicare Card.

## **WHY SHOULD YOU OPEN A BMC FLEXICARE ACCOUNT?**

1-This account enables those in the diaspora to open accounts for their loved ones in Zimbabwe. It offers those in the diaspora peace of mind as your relatives will have access to healthcare 24 hours a day. It also offers a 24hrs transparent billing system through our mobile or PC platform and reduces incidences of misappropriation of funds. Payments are flexible in terms of amount and frequency of paying them. You have the ability to pay medical bills instantly online for treatment of loved ones in Zimbabwe 24/7.

2-There is no age limit . We all know that our parents have paid for most medical aids for about 35 years and as soon as they get to 65 they are refused further medical cover . Flexicare card has no restriction it accepts everyone from those in the womb to those who have one leg in the grave .

3- The card offers your loved ones an opportunity to have a basic health check to reduce their risk of developing diseases like diabetes and hypertension. Health assessments on joining will include Blood Pressure (BP) check , Weight , Height, Body Mass Index (BMI) , Blood Sugar and Optional HIV test . Those found to be at risk of developing certain diseases will be offered services to reduce their risk and those found to have diseases already will be offered appropriate treatment.

4- If there is cash in the card you can add a relative or friend so that they can also be treated. You are in control as you can out any amount you can afford.

5- If a member dies the cash will be refunded or you can add another member .

6- The card is accepted by several health providers other than BMC itself . Here is the list of partners of BMC

## **HOW TO JOIN YOURSELF OR OPEN AN ACCOUNT FOR LOVED ONES ?**
